Education

2010 - Present

Industrial Design & Technology at Loughborough University, First Class Hons 2014.

2004 - 2009

Langley School, Norfolk. (A levels and GCSE's)

A Levels -

Design & Technology

Physics

Chemistry

Media Studies (AS)

- 9 GCSEs

- A national diploma in public services

Employment

July 2013 - Sept 2013

Design intern at Fjord Ltd London, I worked on multiple projects for large companies including Sunglass Hut, Argos and Shell. The nature of the user centered design work carried out had specific emphasis towards being disruptive while providing the user with the best possible experience.

July 2012 - Feb 2013

Product executive at Gear4 Disruptive Ltd High Wycombe, App enabled accessories. I carried out the design and evaluation of new mobile apps for disruptive Ltd. A personal highlight was the Smartlink 2 app, which was shown at CES 2013.

2010 - Present

In 2010 I started honing my skills in iOS development in order to create JAM Apps, which was launched in September 2011. Since then I have expanded my app design and development skills, with more than 100,000 downloads and counting, I am currently distributing for iDevices only, but enjoy UX design over all device types.

Other Experience

To Present

- New Designers Exhibitor 2014.
- RSA 2014 sponsored competition entrant (Semi-Finalist).
- 2014 Loughborough Design Week Winner, Logitech brief.
- Loughborough Design School Degree show Committee 2014.
- Web development (jamapps.co.uk - jake-amies.co.uk - ldsdegreeshow.co.uk) 2014.
- Autocar Courland Next Generation finalist 2012.
- RAG volunteering, 2010 - 2012: continue to commit my time fundraise for charities such as Help For Heroes through events such as Tough Guy.
- Action volunteering, 2010 - 2012: spending time helping the community in and around Loughborough, with projects such as painting, gardening, litter collection.
- Committee helper, 2011: Loughborough University Hall Butler Court throughout fresher's week. Designed and created the first Butler Court iOS app.
- Rotary Challenge, 2009: rotary technology tournament.
- Young Engineer for Britain, Regional finalist 2008:
- CAD Classes, 2008-2009: aided in CAD classes for younger students, designing a mould for the production of chocolate bars.
- Shooting Captain, 2008-2009: captain of a shooting team, competing in three national and two international shooting competitions.

More about me

I am a talented and motivated designer looking forward to being part of the next era of design driven innovation.

By employing a holistic design approach and appreciating how user centered design improves the overall experience, I am able to complete a project to the highest of standards, regardless of the challenge.

This is just a brief overview of the work I have carried out to date, for more details please get in touch to request a portfolio.
